

Making Life More Enjoyable

A Unique Doll That Helps You Realize Life's Possibilities

A SMALL DOLL THAT'S GIVING A LOT OF PEOPLE A BIG LIFT arrives with special messages of inspiration and possibility thinking.

(NAPS)—It's encouraging when a message of possibility thinking comes from a character doll 22 inches tall, dressed in a sweatshirt and sneakers. This unique and adorable doll comes with an interchangeable Heart Message attached to its sweatshirt that encourages people to feel better about themselves, their life and their circumstances. People take one look at this adorable doll and can't help but smile.

The P.T. (Possibility Thinker) doll is the brainchild of Marlene Balbach and was born out of the many challenges she has faced in her life. In fact, for 20 years, Marlene, who battles chronic multiple

sclerosis, had a dream of creating a doll to carry her message of hope and love. Now, after years of planning and dreaming, P.T. has become a reality and is here to encourage, motivate and inspire the people you care about to be the persons they were created to be—no matter what the circumstances.

Numerous embroidered Heart Messages range from "I Love You, Celebrate You, You're Worth It" to "You R Special & Unique. There's no one just like YOU!" The dolls are made for someone you care for in a special way.

To learn more about P.T.'s story, visit www.ptthinker.com or call (866) 361-7907.
